

ORO-NAF FLUORIDE RINSE INSTRUCTIONS

We have recommended rinsing with Oro-naf due to one or more of the reasons listed below:

- Prevention of cavities
- Remineralize early forming cavities (white spots)
- Relieve tooth sensitivity (hot or cold)
- Antimicrobial properties (decrease plaque formation)
- Reverse effects of xerostomia (dry mouth)
- Prevention of root cavities due to gum recession (exposed root surface areas are not protected by hard enamel and become highly susceptible to decay)

INSTRUCTIONS FOR USE

- Using ½ capful, thoroughly rinse for one minute and expectorate.
- Do not rinse your mouth with water, eat, or drink for 30 minutes after rinsing. *Best used after brushing teeth before bed.
- Frequency of use: once per day, every other day.

PLEASE KEEP THIS BOTTLE OUT OF CHILDREN'S REACH; THIS BOTTLE CONTAINS ENOUGH FLUORIDE TO SERIOUSLY HARM A CHILD.

If require a new bottle before your next appointment, please call the office at (403)263-4030. Thank you we look forward to seeing you soon.
